

# SHAIKH MURAD SHABBIR

## SOFTWARE ENGINEER

<https://www.linkedin.com/in/murad-shaikh>

msshaikh0047@gmail.com

Aspiring **Fullstack Web Developer** with expertise in **.NET technologies, React.js, and database management**, seeking to contribute to innovative software projects.

<https://github.com/MuradShaiikh-47>

### Profile Summary

- **Fullstack Web Developer** with solid expertise in **.NET technologies, ASP.NET Core, MVC frameworks, Web APIs, and React.js**.
- Proficient in **frontend development** using **HTML, CSS, JavaScript, and Bootstrap** to create responsive and intuitive user interfaces.
- Skilled in **backend development and database management** with **SQL Server, Entity Framework, LINQ, and ADO.NET**.
- Strong grasp of **software development lifecycle (SDLC)**, coding best practices, and application deployment strategies.
- Experienced in **designing scalable, maintainable, and efficient web applications** across multiple domains.
- Adept at **developing management systems, responsive web solutions, and predictive analytics applications**.
- Demonstrates **problem-solving, algorithmic thinking, and logical design** to deliver optimized software solutions.
- Committed to continuous learning and adopting **emerging technologies and frameworks** to enhance application performance and user experience.

### Technical Skills

- **Frontend Development:** HTML5, CSS3, JavaScript, Bootstrap, React.js
- **Backend Development:** ASP.NET MVC, ASP.NET Core MVC, ASP.NET Web API
- **Database & Data Access:** SQL Server, Entity Framework, LINQ, ADO.NET
- **Frameworks & Tools:** MVC Framework, GitHub, Visual Studio
- **Other Skills:** Responsive Web Design, UI/UX Implementation, Application Debugging, Version Control

### Projects

#### Event Rental Hub | 4 Months

- Developed an **integrated management system** for wedding decorators and event managers to streamline inventory, client, and event management.
- Automated **rental tracking, payments, and reporting**, improving operational efficiency and accuracy.
- Technologies: **ASP.NET MVC, SQL Server, Bootstrap, JavaScript**

#### Smart Health Prediction System | 6 Months

- Built a **predictive analytics platform** to assess patient data and forecast potential health risks using data mining techniques.
- Implemented features for **hospital recommendations, doctor suggestions, and preventive measures** to support early diagnosis.
- Technologies: **ASP.NET Core, C#, SQL Server, Data Mining Algorithms**

#### SpeedUp Infotech Clone | 3 Months

- Developed a **responsive frontend clone** to replicate the SpeedUp Infotech website, focusing on **UI/UX consistency, navigation, and performance optimization**.
- Technologies: **React.js, HTML, CSS, Bootstrap, JavaScript**

#### Institute Management System | 3 Weeks

- Designed a **console-based application** for managing courses, students, batches, enquiries, and payments, reducing manual administrative work.
- Technologies: **C#, SQL Server, Console Application**

### Core Competencies

Fullstack Web Development

ASP.NET MVC & ASP.NET Core

Web API Development

React.js Frontend Development

HTML5, CSS3, JavaScript, Bootstrap

SQL Server & Database Management

Entity Framework & LINQ

ADO.NET & Data Access

Responsive & Mobile-Friendly Design

Software Development Lifecycle (SDLC)

Application Design & Architecture

Debugging & Troubleshooting

UI/UX Implementation

Version Control & GitHub

Problem Solving & Logical Thinking

### Education & Credentials

**B.Tech in Computer Science Engineering –**  
**Adsul Technical Campus, Ahmednagar | 2023**  
**| Grade: 8.2/10**

**12th Standard – Maharashtra Board, English**  
**Medium | 2019 | Grade: 63.23%**

**10th Standard – Maharashtra Board, English**  
**Medium | 2017 | Grade: 85.0%**
